BISCUIT

Duchy Originals Biscuits

(Served with pot of tea)

When The Prince of Wales created Duchy Originals in 1992 it was because of his belief in the clear advantages of organic farming: the production of natural and healthy foods and sound husbandry which helps to regenerate & protect the countryside. All of its profits are donated to The Prince's Charities Foundation.

Highland Shortbread

Our organic highland shortbread is made with only the simplest ingredients. It is delicate and thin with a rich buttery crumb, which melts on the tongue. Each pack bears the distinctive Rothesay tartan, belonging to the Duke of Rothesay, a title held by the sovereign's eldest son since 1469, and used when The Prince of Wales is visiting Scotland. A delightful addition to afternoon tea.

Orange Biscuits

Our organic orange biscuits combine the bittersweet crystallized peel of organic Mediterranean oranges, rich butter and coarse stoneground wheat. The crisp biscuits have an aromatic flavour to lift the jaded palate.

Ginger Biscuits

Raw cane sugar syrup preserves the warm penetrating flavour of the organic Australian ginger used in our ginger biscuits. Soft aromatic pieces of ginger contrast with nutty malted wheat creating a uniquely delicate and spicy biscuit
